

6th Grade Summer Reading

2020-2021

Each scholar is required to read "Restart" by Gordon Korman. He or she will then choose another of Korman's novels to read. Please reference his website listed for all the different novels he offers. For struggling readers, choosing one in a series would be highly recommended.

<http://gordonkorman.com/>

Scholars should be focusing on the following elements in each of the stories:

- Characters
- Setting
- Problem (Conflict)
- Major events (Plot)
- Resolution (Ending)
- Theme (the universal lesson that can be learned)

TASK ONE

Once complete with both novels, scholars should write notes on the document located at: <http://bit.ly/SRCompCont>. They can either bring this in on the first day of school (or day designated by ELA teacher) or upload through the form.

TASK TWO

FORM: <https://bit.ly/mabry6thgrade>

All scholars should answer the short response at the bottom of this form by the first day of school (or day designated by his or her ELA teacher).

If you were given a chance like Chase Ambrose to forget your past and have the opportunity to reinvent yourself, what aspects of your identity would you want to keep? What would you want people to know about you?

(Please see the optional assignment for NoRedInk below for additional, highly suggested practice.)
